KWIK-PRESS HAMMER ARESTORS™

www.pppinc.net

Note the KWIK-PRESS advantage:

Time Saver

Flameless Installation

Positive Water Tight Joint

Professional Appearance

NSF-61 Approved

IAPMO Listed

CSA Listed

Precision Plumbing Products has engineered a Water Hammer Arrestor to be expressly used with pipe joining methods such as Viega's **"Pro-Press"** and Cash Acme's **"SharkBite"** systems. Our new **"Kwik-Press"** Hammer Arrestors™ have been designed to install into these fittings just as a plain end copper tube would. Simply follow the fitting manufacturer's instructions for joining copper tube and you're all set! These systems provide a mechanical joint seal that is permanently watertight, is environmentally sound and the fittings come in a variety of sizes and styles. This proven technology meets industry codes and standards for industrial, commercial and residential applications.
