PLASTIC ICE MAKER BOX INSTALLATION

www.pppinc.net

Plastic Ice Maker Box
 MM-500PIMB

Boxes are supplied with a water hammer arrestor and shut off valve. Boxes include necessary mounting brackets and face-plate. Plastic boxes are molded from high impact polystyrene. (Note: Box dimensions may vary slightly from drawings).

INSTALLATION:

- 1) Position box between studs to desired height.
- 2) Secure box to a backing board or to the front of studs. The front of the box should be flush with wall material.
- 3) Connect the cold water supply to the valve.
- 4) Install face plate by pushing plate into box until plate is flush against the wall material.

USE CAUTION WHEN APPLYING HEAT NEAR THE PLASTIC BOX.
