"Specify with Confidence - Install with Pride"

SOLO-PRIME ELECTRONIC TRAP PRIMING MANIFOLD

"SOLO-PRIME" has been designed to interface with the low voltage energy management systems used to control the special services found in many commercial buildings.

"SOLO-PRIME" is a priming assembly consisting of: subminiature solenoid valve, physical air gap and 6' electrical cord

"SOLO-PRIME" can be placed anywhere in the piping system. By incorporating the precision plumbing distribution units. It reduces the cost per drain served.

MODEL NO:

SP-500-24V ~ **EMS ONLY**

Distribution Units sold separately.

Use only PPP DU-U or DU-4 series as distribution system.
